

Accident Insurance for Active Families

**Affordable!
Benefits Paid Directly to You!**

Supplement your health insurance program with a *“Personal Accident Plan”*

Accidents can happen, especially with an active family. Consider supplementing your major medical plan with an Personal Accident Plan.

- ◆ An accident policy can be an affordable way to give you and your family more medical coverage, and protection from out-of-pocket medical expenses related to accidents.
- ◆ Reimburses you based on your actual charges. **Not a schedule of benefits (like AFLAC and other companies)**
- ◆ Helps cover deductibles, co-pays and other expenses not covered by your primary major medical plan

Cost of a simple ankle fracture is approximately \$2000.

With AFLAC your benefit could be as little as \$250.

**With the Personal Accident Plan your benefit would be \$1900.
(\$2000 less your \$100 deductible)**

Who it's for...

Personal Accident Plan is perfect for individuals or families who want to keep insurance premiums affordable and pay less or none of the out-of-pocket medical expenses associated with a covered accident.

- ◆ Anyone who has a major medical plan with a significant deductible or large co-payments
- ◆ Anyone who's health insurance plan has limited access to health care providers
- ◆ Anyone seeking to help reduce their out-of-pocket health care expenses
