Hidden Pitfalls Under the FMLA

The FMLA is one of the most complex laws for Human Resources departments to properly administer. These complexities are magnified when the lesser utilized provisions of the FMLA are implicated. This webinar is intended to highlight some of the less well-known pitfalls associated with FMLA administration and some best practices to avoid compliance concerns.

Post COVID-19 Human Resource Issues for Employers

Managing the COVID-19 epidemic at its height was a difficult experience for both employers and employees as it involved numerous human resource hurdles never before faced by organizations. Returning to some sense of normalcy will also require facing employee and business issues not previously addressed by organizations historically. This webinar is intended to provide employers with a roadmap to attempt to get their business on the road to recovery in a post COVID-19 environment.
