Who it's for...

Personal Accident Plan is perfect for individuals or families who want to keep insurance premiums affordable and pay less or none of the out-of-pocket medical expenses associated with a covered accident.

- ◆ Anyone who has a major medical plan with a significant deductible or large co-payments
- ◆ Anyone whose health insurance plan has limited access to health care providers
- ◆ Anyone seeking to help reduce their out-of-pocket health care expenses

Accidents can happen...

Especially with an active family. Consider supplementing your major medical plan with a Personal Accident Plan.

An accident policy can be an affordable way to give you and your family more medical coverage and protection from out-of-pocket medical expenses related to accidents.

Reimburses you based on your actual charges. Not a schedule of benefits like some other companies.

Helps cover deductibles, co-pays and other expenses not covered by your primary major medical plan

New Enhancements...

- ◆ \$0 Deductible
- ◆ Includes AD&D \$10,000 on primary and spouse (\$5,000 children)
- ◆ Issue age up to 85
- ◆ Surgeries and PT has increased from 90-180 day
- ◆ Now have one week to seek coverage (was 72 hours)
